SRC-1

FLOORSTANDING SPEAKER

Music in Full Flow. The SRC-1 was created with one purpose: to let music breathe in its most natural, unforced form. Every driver is chosen with care and refined to perfection, then united in a design that honors not only precision, but the soul of the performance.

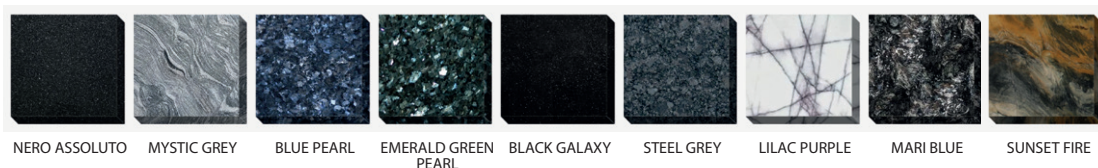

From the quietest moments to the most powerful crescendos, the SRC-1 conveys music with an ease that feels alive — rich in tone, seamless in balance, and expansive in scale. Its granite enclosure provides the immovable foundation, but it is the emotion, texture, and intimacy that remain long after the last note fades.

**The SRC-1 is more than a floor standing loudspeaker.
It is an open window into the music itself.**
